IV- Standards and Applicable Accounting Policies

1. Principles for converting financial statements prepared in foreign currency into Vietnamese Dong

2. Exchange rates applied in accounting

flows.

4. Principles for recording cash and cash equivalents:

Cash is a comprehensive indicator reflecting the total amount of money available to the enterprise at the reporting date, including cash on hand at the enterprise's treasury and demand deposits at banks. It is recorded and reported in Vietnamese Dong (VND), in compliance with the provisions of the Accounting Law No. 03/2003/QH11 dated 17 June 2003

Converting other foreign currencies into the accounting currency:

For the settlement of monetary items denominated in foreign currencies arising during the financial year, one they are converted at the actual exchange rate at the time of the foreign currency transaction, as provided by the commercial bank where the enterprise conducts its transactions. At the end of the financial year, the balances of monetary items are revalued based on the average exchange rate of the commercial banks where the enterprise holds accounts, as announced at the closing date for preparing the financial statements.

5. Financial Instruments

6. Receivable

7. Inventories:

- Principles for recording inventory

Inventories are calculated at historical cost

The cost of inventories includes purchase costs, processing costs, and other directly attributable costs incurred to bring the inventories to their current location and condition

- Method for calculating the value of inventory at the end of the period: The value of inventory at the end of the period is determined according to the weighted average price method at the end of the month
- Inventory accounting method: The company applies the regular declaration method
- Provision for devaluation of inventories made at the end of the period is based on the excess of original cost of inventory over their net realizable value.

8. Recognition and depreciation of fixed assets, financial lease fixed assets, and investment real estate - Principles for recording and depreciating tangible fixed assets: Fixed assets are recorded at their historical cost and are reflected on the balance sheet according to the criteria of original price, accumulated depreciation and residual value.

The recognition of tangible fixed assets and depreciation of fixed assets comply with Vietnamese accounting standard No. 03 - Tangible fixed assets.

The historical cost of purchased fixed assets includes the purchase price (minus trade discounts or rebates). Taxes and expenses directly related to bringing the property to its ready use.

The historical cost of fixed assets constructed by contractors includes the value of completed works, directly related costs and registration fees.

Expenses incurred after the initial recognition of tangible fixed assets are recorded as increasing the historical cost of the asset when these expenses certainly increase future economic benefits. The costs incurred that do not satisfy the above conditions are recorded by the company in production and business expenses during the period.

The company applies the straight-line depreciation method for tangible fixed assets. Accounting for tangible fixed assets is reclassified into groups of assets with the same nature and purpose of use in the company's production and business activities, including:

Buildings and structures - Depreciation period ranges from 10 to 50 years. Machinery and equipment + Transmission vehicles are depreciated from 6 to 10 years, Management equipment and tools are depreciated from 5 to 8 years.

20. Revenue:

The company's revenue includes sales of medicinal products, cosmetics, functional foods, wholesale revenue of medical equipment products and revenue from deposit interest and loan interest.

Revenue from sales of goods and products is determined according to the fair value of the amounts collected or to be collected according to the accrual principle, recorded when transferring goods to customers, issuing invoices and being accepted by customers. Accept payment in accordance with the 5 revenue recognition conditions specified in Vietnamese accounting standard No. 14-"Revenue and other income".

Advances received from customers are not recorded as revenue during the period.

Deferred interest payments are presented in the item "unearned revenue", which is recorded in financial income when the interest is due.

21. Revenue deductions

22. Cost of goods sold

Cost of goods sold is recorded and grouped according to the value and quantity of finished products, goods, and materials sold to customers, in accordance with the revenue recorded in the period.

The cost of services is recorded according to the actual costs incurred to complete the service, in accordance with the revenue recorded in the period.

23. Financial expenses

Financial expenses recorded in the income statement are total expenses incurred in the period, not offset against financial revenue, including interest expenses, exchange rate differences, and sales discounts.

24. Selling expenses and general administrative expenses

Selling expenses and general administrative expenses are recorded on the basis of valid documents of arising incidents, arising related to sales, advertising and marketing are recorded in selling expenses.

25. Corporate income tax expenses:

Current CIT expense is determined on the basis of taxable income and CIT export tax in the current year.

The determination of the Company's corporate income tax is based on current tax regulations. However, these regulations change from time to time and the final determination of Corporate Income Tax depends on the inspection results of the competent tax authority.

26. Other accounting principles and methods

26.1 Receivable and payable

Principles for determining customer receivables are based on contracts and recorded according to Sales Invoices issued to customers

Advance payments to sellers are accounted for based on payment vouchers, bank documents and economic contracts.

Principles for determining payables to the seller are based on the contract, warehouse receipt and recorded according to the buyer's purchase invoice.

The buyer's prepayment is recorded based on the contract, receipts and bank documents.

26.2 Construction in progress expense

Construction in progress expense are recorded at cost at the time of acceptance and finalization of each work item, or when actual costs are incurred with complete legal invoices and documents.

26.3 Tax obligations

Value Added Tax (VAT)

Enterprises apply VAT declaration and calculation according to the guidance of current tax law with a VAT rate of 0% for export shipments, 5% for medicines and 10% for other items.

Corporate Income Tax

Applies a tax rate of 20% on taxable profits

Other taxes

Other taxes and fees are declared and paid by enterprises to local tax authorities in accordance with current State regulations.
